

# Exterior Architectural Lights

By NookSchoenfeld

There's a fine line between entertainment and architectural lighting. They even invented the term "archi-tainment" for such a reason. There comes a time in every lighting vendor's life where they are asked, "Can you get me some weatherproof lights to wash these banners at an outdoor show?" In the past, some hard research had to be done, or covers for fixtures had to be invented. Nowadays, almost everyone making entertainment lights has an architectural division. Here are the names you know and trust, with some great options for exterior lighting fixtures. All of the ones featured here offer color mixing along with a range of white color temperatures and weatherproof ratings.

Acclaim Lighting Dyna Drum HO

**Type:** Flood  
**IP Rating:** IP66  
**Lamp Source:** 24 10W LEDs  
**Power Consumption:** 260W  
**White Color Temp:** 2400-5500K  
**Operating Temp Range:** -20° to 122°F  
**Beam Angles:** 6° (standard), 20°, 40°, 60° lens options  
**Exterior Finish:** Gray (standard), white or black (optional)  
**Weight:** 30 lbs.

**Size:** 15.1 x 15.7 x 7.6"  
**Accessories:** Adjustable yoke and a built in receiver for the Aria wireless DMX system included.  
**MSRP:** \$2,500  
**Notes:** Available in two LED models: 1) A 24 x 10W Quad Color RGBW with homogenized optical lens system, or 2) 90 3W Cree single lens/led optic solution with RGBW, RGBA, various color temps.
