➤ ADJ Vizi Hex Wash7/ Vizi Q Wash7

ADJ's 105W Vizi Hex Wash7 and the 280W Vizi Q Wash7 both offer WiFLY wireless DMX and motorized zoom, allowing them to create tight beams for mid-air effects as well as wide washes for illuminating stages. With seven 40W quad-color (RGBW) LEDs, the combined LED output of 280W give the Vizi Q Wash7 units impressive light output. The Vizi Hex Wash7, meanwhile, incorporates seven 15W HEX (RGBWA+UV) LEDs allowing for an extremely wide color palette. Electronic zoom lets the beam angle be altered between 5°-55°.

➤ Blizzard 3.9mm IRiS R3

Blizzard Lighting's IRiS R3 LED video panel is an ETL listed professional video panel well suited for either indoor rental or permanent installations. Each panel features 128x128 resolution (16,384 pixel), high-contrast 3-in-1 SMD2121 blackbody LEDs for vivid colors and wide gamut. IRiS R3 features 3.9mm pixel pitch, 1200nits brightness and 1920Hz refresh rate for eye and camera appeal. The panels have a quick-lock system for ease of use. And indexed, locking concave/convex radian horizontal connectors allow for curved layouts between 5° convex and 10° concave.

➤ Chauvet Professional Maverick MK3 Wash

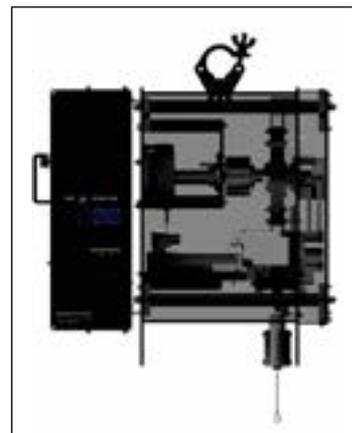

Chauvet Professional's Maverick MK3 Wash, launched at PL+S 2017, raises the bar with 27 40W Osram RGBW LEDs, 1,080W total output, 7°-45° zoom, 16-bit dimming, and a built in virtual gobo wheel with background color control for impressive visual effects. It can be used for pixel mapping effects. Other features include built in color macros and gobos and CTO color mixing. Control options including DMX, sACN, Art-Net, Kling-Net or W DMX. It can also receive Art-Net or sACN in, and send DMX out, simplifying cable runs.

➤ Creative Conners Spotline Practical

Creative Conners' Spotline Practical is a compact new hoist with a powered lifting line and integrated motion controller. It lifts small scenic elements and practical lighting while maintaining safety standards and ease of use. Controlled by Conners' Spikemark software, the Practical is programmable and cue-able with other Creative Conners' hoists and machines. It offers 35 feet of travel, a max speed of 48 inches per second, and can lift 15 pounds. Utilizing a 110V powered lifting line, it can power up to 1200W suspended lighting instruments.

➤ Elation Artiste DaVinci

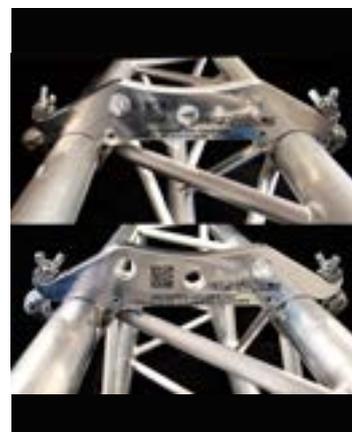

Elation Professional's Artiste DaVinci, a full-featured yet compact "theatrical grade" LED moving head spot luminaire, is the first in the company's new Artiste series. Its 13,000-lumen output is comparable to 700W discharge lamp fixtures. It has a newly designed 300W LED engine (>7,500K) and advanced optics. The color mixing system includes CMY, seven dichroic colors from a color wheel including CTB and CTO color mixing. While the fixture is a highly capable spot luminaire, a frost filter is included when the moment calls for a softer wash effect.

➤ Laserworld RTI Neo One

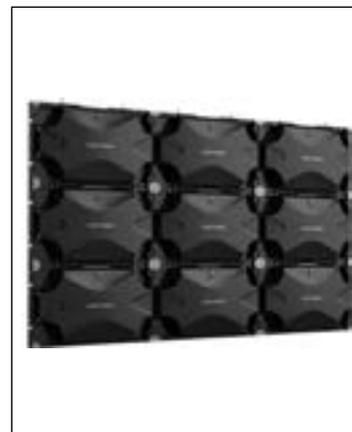

Laserworld's RTI Neo One laser is designed for multi-projector applications with an octagonal design and quick-lock system that lets several units be attached to each other. The white light full color laser system (24W RGB per meter or 4W RGB per unit) is suited to large scale and long throw applications. An internal playback system can be individually configured with custom patterns or animations (free software for creating ILDA patterns is included). Effects that can be controlled via DMX and Art-Net; no other control system is required.

➤ LianTronics VL1.2 LED Screen

LianTronics' VL1.2 LED small pixel pitch LED screen is made with ultra-high resolution panels that are light in weight, tipping the scales at less than 17.2 pounds each. Made with an aluminum alloy design, the panels are designed for indoor use and come with easy-to-install and an easy-to-maintain (front-accessible) design. Module, power supply, receiving card, conversion card, and cables between panels can all be maintained from the front, and the screens are designed for speedy assembly in frequently used 4:3 or 16:9 configurations, reducing costs.

➤ Mega-Lite XTRA 17R

Mega-Lite's XTRA 17R is the newest member of the Axis family of products from Mega Systems Inc. Housing a 350W 17R lamp, the fixture offers strong output for long throw applications. The unit is equipped with 14 gobos plus open and 14 colors plus open. Additional effects can be created with the fixture's two prisms (16-facet rotating prism in both directions) and electronic focus (the zoom range is 3.8° to 45°). The fixture also comes with a frost filter and an easy-to-navigate touch screen LCD display.
